HOT TIPS

- Arrive on the competition floor in plenty of time.
- You will lose points for any hair grips showing.
- Train your model to sit or stand properly and smile (depending on the look you are trying to create)!
- Use Barrier cream or moisturiser to prevent colour staining in skin and mannequins
- Hair should have movement, a natural look and not be over sprayed.
- Remove all loose hair (when cutting from neck, face and clothes before presenting model.)
- Colour should blend, harmonise and complement the cut and the style.

MY TOP TIPS FOR HAIR & PHOTOGRAPHIC COMPETITIONS BY FRANK SHIPTON

My thanks to the Welsh Region of the National Hairdressers Federation for allowing me to share my knowledge and experience with you, of hairdressing competitions and hair photographic competitions.

Research your look and read the rules - So important as too often beautiful hair looks are placed by the competitor in the wrong category, and judges can only go by the rules and judge what they see before them.

Research the lighting at the competition venue - Blondes, coppers and reds change colour in fluorescent lighting. For photographic work, then the photographer can amend this afterwards.

Practice, Practice, Practice - Fail to prepare, prepare to fail goes the old adage but it is the only way to achieve your best result on the day. Practice to the timing of the event you are entering.

Change nothing that you have been practicing on the day - If you have practiced long and hard, then don't change anything to your hairstyle, as this will generally become an unsuccessful look.

Use the best model that you can afford - Your model sells your style and for photographic competitions, even more so. For photographic works always check the model's portfolio before booking them, to see that they have more than one facial expression.

Attention to detail - Do your model's clothes and hairstyle actually create a total look? keep jewellery to a minimum and if used ensure that it is complementary to the look you want. If in doubt, leave it out. Have you removed all hairpins and grips? Is there any hair on your model's clothes? Are there stray hairs? If your model is a blonde, stylists wear a dark top so that you can stand behind the model and see in the mirror if there are any odd hairs on the perimeter of your style.

Hair Photographic work is 2 dimensional- Remember that for a photographer it is all about the face and the hair that surrounds it, unlike a hair competition where your hairstyle is all around the head.

You and nerves - If you have researched, prepared and practiced then the competition floor or the photographic studio is just another practice, but in a different venue.

Good luck to you all and enjoy your competitions and photo shoots.
